Gland Packing Tamping Tools

Exclusive to PUMPNSEAL Australia

CUSTOM MADE TAMPING TOOLS TO CORRECTLY INSTALL PACKING RINGS

The new PUMPNSEAL Tamping Tools are mechanical tools that ensure packing rings are installed and seated correctly. This will maximise the life of the packing, ensuring the pump and equipment are protected.

Just another example of how PUMPNSEAL Australia find a way.

PRODUCT BENEFITS

- Protect your valuable equipment
- Get the maximum life out of your packing
- Save time with less gland adjustments
- Install packing correctly the first time
- All tools are axially split with 6 x 4mm holes for extraction
